Bitgert Price Prediction: Can BRISE Crypto Reach \$0.00001 by Early 2023?

Original:

<https://www.btcc.com/en-US/academy/research-analysis/bitgert-price-prediction-can-brise-crypto-reach-0-00001-by-early-2023>

Bitgert price prediction this month is that the coin shall increase 5X. This means before the end of December, BRISE may be among the most rewarding coins. Already, [Bitgert](#) is way ahead of even the big players in rewarding investors.

At press time, Bitgert was trading at \$0.0000003193, and crypto experts believe that the coin might hit \$0.00001 in early 2023. This means the coin shall have increased by almost 100X by early 2023.

Crypto analysts believe this Bitgert price prediction is highly possible and that the crypto has the potential to explode even bigger than this in the next few weeks. Experts have identified several factors that will make Bitgert one of the most explosive coins in the next few weeks. They include:

Bitgert Gasless Blockchain

There is no doubt that the Bitgert BRC20 chain, a gasless blockchain, has increasingly gained popularity this year. This is because more developers opt to use this chain because of the zero gas fee, which is \$0.00000001. This is the lowest gas fee in the market and has addressed the costly gas fee issue that all other blockchains are struggling with.

Bitgert BRC20 blockchain is also the most scalable today, with its 100,000 transactions per second speed making it the fastest chain in the market. These are features making BRC20 gain massive adoption, which is exploding Bitgert price. That's how BRISE will hit \$0.00001.

Bitgert Exchange Adoption

The adoption of the recently launched Bitgert exchange is another reason why Bitgert did very well in the market this year. In fact, looking at the Bitgert price after the exchange launch, it has been

doing pretty well. But the adoption of the Brise exchange is what will keep BRISE doing very well in the market this year.

Bitgert Paybrise Adoption

The Bitgert Paybrise also launched in the first week of December, and its build-up to the launch exploded the performance of the Brise coin. Now that this payment gateway has been launched, it is expected to be massively adopted in the next few weeks. This is another reason Bitgert will be able to reach \$0.00001 in early 2023.

Bitgert Partnerships

Another reason why crypto analysts believe that \$BRISE will reach \$0.00001 in early 2023 is the hundreds of partnerships coming up. Bitgert has 1000+ partnerships coming up, which will increase BRISE adoption in the next few days.

In short, Bitgert has so much potential to explode 100x in the next few weeks. This is why BRISE is listed as the ideal cryptocurrency project to buy today.
