What Is BTCC?

BTCC (“BTC & Crypto”) is a cryptocurrency exchange that supports the leading ten cryptocurrencies of the marketplace. These cryptocurrencies include Ethereum, Bitcoin, Litecoin, Bitcoin Cash, etc. It has been operational since 2011 and has been an exchange that experienced tremendous growth.

BTCC has served over 6 million individuals to date, and the user base continues to increase. Over the past couple of years, the exchange has been consistently improving the quality of its platform while also adding new features. Most users who choose the platform do so because of its liquidity, reliability, ease of use, and security.

The platform also offers BTCC mobile APP for the users to trade flexibly. The majority of crypto traders have encountered unstable and overly complex interfaces while utilizing features on crypto platforms that attempt to perform everything. This is not the case with BTCC. The exchange boasts simple user-friendly interface and intuitive trading platform which enable individuals to trade cryptocurrencies easily.

Overall, BTCC exchange platform offers a seamless and rewarding experience to those who use it to trade cryptocurrency. Over the years, It has successfully made an interface that appeals to the customers and keeps up with the growing security risks. Despite this, BTCC exchange has managed to stay above any major vulnerability or cyber attack. This might be a result of the impeccable security standards and safety protocols that have been deployed on the platform. Any BTCC review boasts of its excellence and the finesse that lies in even the most minor details to offer a simple and transparent platform.

How to Start Trading with BTCC?

The process of trading cryptos with BTCC begins with [registration](#)/ logging in. With attention to security, the platform has a history of high safety standards, and the individuals would need to verify their mobile number before starting the KYC procedure. Once verified, the users can use the website for crypto trading with the least risk.

Users can either trade their existing cryptos from their assets or buy cryptos through any of their desired payment methods (supported methods include U.S. dollars, credit card, wire transfer, etc.). BTCC also allows users to transfer one cryptocurrency into another immediately and without difficulty. Beginners can also seek help or other content from the online community that can be contacted by many social media platforms (with over 200,000 members).

Besides, individuals can earn on the platform through referrals and bringing in fresh customers once they start trading. The rewards do not cap on them and can theoretically be a source of constant funds and earnings.

Things You Need to Know Before Trading on BTCC

BTCC Discount and Promotions

BTCC offers 10 USDT [sign-up](#) bonus and exclusive deposit bonus for new users. Meet the deposit target and you can unlock up to 14,000USDT.

Meet the deposit targets within 30 days after successful [registration at BTCC](#), and you can enjoy the bonus of the corresponding target levels. Only deposits made in the following cryptocurrencies are valid for this campaign: USDT, USDC, BTC, ETH, and XRP.

Deposit USDT/USDC	Deposit XRP	Deposit BTC	Deposit ETH	Bonus Obtained by Depositing Any of the Above Coins (USDT)
100	100	0.003	0.04	10
500	650	0.012	0.15	25
2,000	2,500	0.05	0.6	50
5,000	6,500	0.12	1.5	100
12,000	13,000	0.25	3	200
20,000	25,000	0.5	6	400
50,000	65,000	1.2	15	1,000
100,000	130,000	2.5	30	2,000
150,000	200,000	3.5	45	2,500
200,000	250,000	4.5	60	3,500

BTCC Fees

The fees charged by the exchange are a mixed bag. The transaction fee is highly competitive, although the withdrawals come with higher trading fees when put against some of the competitors in the market. The minimum amount of Bitcoin fee for withdrawal is 0.0015 BTC.

Fees for cash withdrawals are 0.30%, but they also happen to be a minimum value. The opening fee

in most cases is zero, but the closing fee is what differs and may seem higher. Apart from the asset, the fees vary depending upon the kind of transactions (such as swap, daily settlement, etc.). However, to get the complete fee structure of BTCC exchange by clicking [here](#).

BTCC Payment Methods

BTCC supports all the popular payment methods for both withdrawals and deposits. The payment ought to be made in USD, and the modes of payment include bank transfers, debit cards (or credit cards), and directly depositing cryptocurrency.

BTCC Deposit and Withdrawal Methods

When it comes to depositing funds to the platform, individuals can use various listed payment systems, including wire transfer, credit card (or debit cards), and few cryptocurrencies. The option to directly deposit through crypto assets is not very common to see in exchanges. Individuals must get their accounts verified to be able to deposit funds fully.

Withdrawals are just as intuitive and easy as depositing funds. For online bank withdrawals, there is a daily limit of 100,000 or 500 when it comes to withdrawing Bitcoin. USD is the primary fiat currency for both withdrawals and deposits.

BTCC Customer Support

Customer support has been one of the company's strong suits, and the team behind the platform consistently takes feedback from the customers as it keeps on updating the platform. Constant updates and focus on every fine detail of any BTCC review is how the exchange has built a cherished platform and is praised by the majority of its user base. The company also tries to engage with its customers through social media channels and provides information about any new activity or change through their Twitter handle.

BTCC Review: Why Trade on BTCC Exchange?

- **Safe & Secure**

With over 11 years of stable and secure operating history, BTCC places strong emphasis on security, offering multiple strict measures to ensure the safety of user assets, with no reported hacks or security breaches to date.
