## How To Buy Pepe 2.0? – A Beginner's Guide

Original:

<https://www.btcc.com/en-US/academy/research-analysis/how-to-buy-pepe-2-0-a-beginners-guide>

Every day it seems like a new [cryptocurrency](#) or a new version of an existing [cryptocurrency](#) is released. [Pepe 2.0](#), the successor to [Pepe Coin](#), which soared more than 10,000% this past spring, is one of the v2 coins generating the most interest.

Pepe 2.0's price has increased by almost 3000% and could go even more. This article will explain readers how to invest in Pepe 2.0 and discuss whether or not the [cryptocurrency](#) is a good bet right now.

[TRADE\_PLUGIN]10000PEPE2USDT,PEPEUSDT[/TRADE\_PLUGIN]

### What Is Pepe 2.0?

There is a growing trend of clone [cryptocurrencies](#) modelled after successful meme coins like [Pepe coin](#) (\$PEPE), and one such coin is Pepe 2.0 (\$PEPE2). The first version of Pepe appeared online in April 2023, running on the Ethereum (ETH) network. Two months later, Pepe 2.0 was released. The website claims that the new 2.0 edition of the PEPE project is an attempt to make amends for previous blunders, such as releasing the meme coin on a weekend and blacklisting some early

investors.

It is hoped that with Pepe 2.0, traders and investors who lost out on PEPE's initial bull run will get a second chance to profit from the [cryptocurrency](#).

Notably, this FOMO marketing tactic has re-ignited interest in both the original Pepe and [Pepe 2.0](#), leading to greater trading volumes for both cryptocurrencies.

In May of 2023, PEPE's market value skyrocketed to a peak of \$1.6 billion. In late June of 2023, Pepe 2.0 began to receive notice. Its goal is to "redo his billion-dollar run," or replicate the commercial success of the first coin.

# Pepe 2.0 Tokenomics

Tokenomics in the Pepe 2.0 project are said to be specially created to “reward holders while maintaining a healthy ecosystem.” According to the website, the developers of Pepe 2.0 gave up control of the smart contract address to prove their seriousness about security. The goal of this move is to increase openness and guarantee locals keep their say in the project.

Important specifics include the following:

- Address for sending a contract: 0xfb66321d7c674995dfcc2cb67a30bc978dc862ad
- Quantity available: \$420,690,000,000
- Taxes: 1%
- For Safety: Giving Up Title

**[Deposit and Receive Up to 10,055 USDT!](#)**  
**[Trade on BTCC Now](#)**

## Is Pepe 2.0 a Good Investment?

The value of one PEPE2 coin increased from a low of \$0.000000000004795 on June 27 to a new all-time high of \$0.00100171 on July 6.

In just 24 hours, one trader made \$176,000 from a \$900 investment in PEPE2. On June 28th, a wallet purchased 8.3 trillion PEPE2 coins, according to on-chain data, as tweeted by @DamiDefi. The wallet programmed an exit plan to sell 2 ETH of PEPE2 approximately every three to seven minutes as the price of the Pepe 2.0 meme coin climbed.

This might be the cleanest entry and exit I've seen a while!

This [#crypto](#) wallet got into [#PEPE2](#) before anyone had heard about it.

Turning \$900 to \$176k in less than 24hrs!

Let's explore  (Plus I'll show you a proven take profit strategy when trading)  
[pic.twitter.com/L64kzVekMQ](https://pic.twitter.com/L64kzVekMQ)

— Dami-Defi (@DamiDefi) [June 30, 2023](#)

Many potential buyers of Pepe 2.0 tokens are asking themselves the same question: "Can the token go even higher?"

Investors that think Pepe 2.0 has a chance of being successful are buying it up now. Investors who think the current price of Pepe 2.0 indicates a high are avoiding the meme coin in favour of other opportunities.

What will happen to Pepe 2.0 after this point is uncertain. The value of certain exploding meme currencies that made crypto billionaires vanished almost entirely within a few hours. Some have retreated from their highs for a few days, only to rally and experience an even more dramatic price change.

The price of Pepe 2.0 is now rising and trading volume is increasing, indicating that now is a good time to buy. However, early buyers run the danger of being left holding the bag if the price of the coin drops.

## Is Pepe 2.0 Legit?

Investors in Pepe 2.0 should not expect the cryptocurrency to follow any strict protocols because it is a meme coin. The only way to know if investing in this coin is risk-free is to learn how it operates.

The Pepe 2.0 team remains anonymous. It's unclear why the wallets who developed the token were blacklisted by the original PepeCoin project or what inspired them to create Pepe 2.0.

However, most meme currency projects' developers are nameless, so this shouldn't be that surprising. The Pepe 2.0 developers have also given up control of the token's contract, thus handing the initiative over to the Pepe 2.0 user base.

This is significant since it implies that Pepe 2.0's tokenomics cannot be altered at short notice. There is far less risk of a developer pulling a fast one on investors if they do not have control over the token's contract.

Notable too is the fact that Pepe 2.0 can be bought and sold on reputable centralized exchanges like LBank, BitMart, and Bybit. These marketplaces have previously sold fraudulent coins and provide no assurances that Pepe 2.0 is legitimate. Nonetheless, this is seen as a positive indicator by many investors.

Investors should be aware that the token's value can suddenly drop to zero even if Pepe 2.0 is authentic. They stand to lose any money they put into Pepe 2.0.

## Where to Buy Pepe 2.0?

You may get your hands on PEPE2 meme coins via both DEX and CEX, or centralized and decentralized exchanges. Since DEX listings are available to all ERC-20 tokens, they serve as the primary listing venue for meme coins like PEPE2. The Uniswap website can be accessed via a link on the official Pepe 2.0 website.

PEPE2 is traded on the following cryptocurrency exchanges (CEXs): BTCC, Gate.io, ByBit, Bitget, MEXC, LBank, BitMart, DigiFinex, BiTrue, and NovaDAX.

Since PEPE2's market cap is very low, major CEXs like Coinbase and Binance have not yet listed it.
