## What Is Pepe Coin?

Pepe Coin works as an ERC token built on the Ethereum blockchain. Since launched in April 2023, Pepe Coin has rapidly gone viral. Pepe coin does not have a formal team or any roadmap. Pepe Coin, with a market cap of more than \$5 billion, is a humorous homage to the well-known meme character “Sad Frog”.

Although the official website of Pepe Coin states that PEPE is a meme coin with no intrinsic value or expectation of financial return, it has still successfully won the hearts of the vast number of coin traders on the social media platform and built a loyal community that is full of expectations for the future of this meme coin.

The following sets forth the PEPE/USD price chart:

## Major Features of Pepe Coin

- **Deflationary mechanism:** throughburning a small percentage of tokens in each transaction, this mechanism helps to create scarcity and also increase the value of the left tokens over a period of time.
- **Redistribution system:** thissystem distributes a portion of the proceeds from the transaction to existing token holders, creating an additional incentive for users holding Pepe coins.
- **Tax-free policy:** Pepe Coin ensures that users do not incur any additional costs when buying, selling and trading this meme coin. This feature is in contrast to other cryptocurrencies that may impose a tax on transactions, reducing the additional burden on traders and investors.
