What is Cat in a Dogs World (MEW) Coin?

In the dog-eat-dog world of cryptocurrency, Cat in a Dogs World (MEW), a new meme coin, emerged. This meme coin, Cat in a Dogs World (MEW), a feline force to be reckoned with, struts with the confidence of a cat on a hot tin roof amidst competitors dominated by doges and shibas. The MEW coin is the native token of cat in a dogs world and represents a bold attempt to break the dominance of dog-themed memes by introducing fresh cat-centric narratives. The project, which was launched on the Solana blockchain, has quickly attracted the attention of the cryptocurrency community since its launch.

MEW Tokenomics

The total supply of MEW coins is 88,888,888,888 MEW, and the current supply in circulation is 88,888,888,888 MEW.

According to the official website, the token distribution of this meme coin is as follows:

- 90% of its liquidity pool (LP) tokens are burned, targeting to establish a stable price floor, thus reducing the token's vulnerability to market volatility
- 10% was airdropped to the Solana community, a move fostering engagement and support within an existing community, enhancing MEW's presence and usefulness in the broader crypto ecosystem.

How Does MEW Coin Perform?

Since its debut in the early hours of March 26, MEW cryptocurrency has seen a surge in trading activity, boasting over \$176 million in volume in just the first 5 hours of trading.

In addition, a cryptocurrency trader stunned the entire community by earning an extraordinary fortune via a trivial investment in MEW coins in less than two hours. This savvy investor bought a staggering 4.41 billion MEW tokens for 178.2 SOL (equivalent to \$35,000). In just two hours, the value of the MEW tokens he received soared to an eye-popping \$8.9 million. This resulted in an unrealized profit of nearly \$8.89 million, or 255 times the initial investment.

Then on April 3, 2024, MEW price spiked by over 30%, driving its market cap to \$765 million—only a week after its launch. This rally attracted attention from big dogs like BitMEX co-founder Arthur Hayes and crypto analyst Lark Davis.

MEW Price Prediction 2024,2025 and 2030

As of April 2, MEW was trading at \$0.00637, up 3.73% in the last 24 hours, and this meme coin was up 263.27% in the last 7 days, peaking at \$0.01034.

With the rise in the price of the coin, MEW's market capitalization reached \$569,027,063, ranking 221 among all cryptocurrencies. In addition, its trading volume in the last 24 hours was \$219,543,080 and circulation supply was 88,888,888,888 MEW.

The following sets forth the MEW to USD Price Chart:

MEW Price Prediction 2024

With the support of a dedicated and active meme-crypto community, cat in a dogs world has the potential to reach even greater heights in the coming years. By the end of 2024, the potential maximum price level of the MEW coin could reach \$0.0142 and the potential average price level is \$0.0126.

However, if the cryptocurrency market faces major challenges, in a bearish environment, the price of cat in a dogs world could fall to \$0.0110 in 2024. If the cat in a dogs world project announces any potential use cases, the price of MEW coins may exceed our price forecast.

MEW Price Prediction 2025

The Meme coin has huge potential to attract the attention of a large number of traders, and its popularity, combined with its development, could trigger a bullish trend in the market. Based on our price forecast for cat in a dogs world in 2025, we predict that the Meme's highest yearly price level can reach \$0.016815 by 2025.

If the market remains stable and bullish, we expect the average price of MEW coins to remain high in 2025, and the minimum price of MEW coins may fall to around \$0.0199. However, if the market is bearish, the lowest price for MEW this year could fall to \$0.0180. If the trend of meme coins continues, MEW coins may exceed our price forecast in 2025.

MEW Price Prediction 2030

Many cryptocurrency analysts believe that the price of cat in a dogs world will continue to rise due to potential partnerships that are coming up in 2030. In the long term, cat in a dogs world is expected to see significant growth and it has the potential to reach a peak price by the end of 2030, with prices reaching \$0.0583.

If the crypto community supports the meme coin, the average transaction price of the MEW coin could be around \$0.0560. However, if the cryptocurrency market experiences a significant bearish trend, the minimum price of the MEW coin could fall to \$0.0541 by 2030.

MEW Future Outlook

With the world of cryptocurrency being a dog-eat-dog landscape, MEW meme coin is taking the crypto world by storm. There's no denying that MEW's unique tokenomics, blending strategic

burning and intentional airdrops, has made it as a unique breed in the competitive cryptocurrency market. Like a cat with nine lives, MEW has proven to be resilient with its excellent performance. We believe the outlook for MEW is promising and Mew would certainly make great contribution to the develop of meme coin and even the whole cryptocurrency market.

In summary, the rise of Cat in a Dog World's native token, \$MEW, represents a change in the meme coin landscape, challenging the dominance of dog-themed tokens and drawing the attention of crypto enthusiasts. With its impressive performance post-launch and remarkable success stories of early investors, \$MEW presents an intriguing opportunity for those looking to capitalize on the meme coin craze.

However, as all cryptocurrencies are quite volatile in nature, all investors, no matter are experienced traders or newcomers, are highly advised to do enough homework and thorough research before making any investment decision.

The following sets forth the guidance for buying cryptocurrency futures on cryptocurrency exchange BTCC:

Step One: go to the [BTCC homepage](#) and log in to your BTCC account. If you do not have an account, you need to register first, and then fund USDT in your crypto wallet after registration.

Step Two: go back to the BTCC official homepage, choose "Futures" - "USDT-M Perpetual Futures Contract", and find the cryptocurrency/USD trading pair.

Step Three: choose the contract trading order type. BTCC contract orders are divided into market orders, limit orders and stop-loss orders.

- **Market Order:** users place orders at the best price in the current market to achieve fast trading.
- **Limit Order:** Limit Order is used to plunge to the top/bottom of the market, which is a user-defined bid/ask price. Once the market reaches the limit price, it can be filled.
- **Stop Loss Order:** Stop Loss Order can be interpreted as a "Breakout Order", which is an advanced limit order where the user can set a custom bid/ask price. After the market reaches the limit price, it will be closed.

Step Four: adjust the leverage multiple.

Please keep in mind that operating leverage carries the risk of liquidation. Leverage should be adjusted based on your financial status and risk tolerance.

Step Five: choose the lot size and set the stop profit and stop loss price .

Step Six: after setting the basic data information, users can choose to buy (open long) or sell (open short) after entering their ideal price. Traders should remind that the price cannot be higher or lower than the highest buying price or lowest selling price of the platform.

Step Seven: click the buy or sell button, and the crypto contract order is completed.
