### Futures Contract Specifications

#### 1. Margin Level

BTCC's margin level is 30%. When the net value of your account is lower than the margin level, your position will be forced to close by the system. The system will start from the order with the largest loss until your account's net value returns to a level that is higher than the margin level.

#### 2. Futures Settlement Time

There are two types of regular futures at BTCC: daily and weekly. When the settlement time arrives, the system will automatically close the positions regardless of the profit or loss.

● **Settlement time for daily futures: Every day from 21:00 to 23:00 (UTC+0)**

● **Settlement time for weekly futures: Every Saturday from 21:00 to 23:00 (UTC+0)**

Routine system maintenance will be carried out every Saturday from 00:00 to 00:30 (UTC+0). Please note that trading during this period will be affected.

#### 3. Trading Fees

● **Transaction Fees:** [BTCC](#) offers different VIP account levels. The higher your account level is, the greater discount on transaction fees you will enjoy. The lowest transaction fee is only 0.03% per trade. Please refer to [the benefits for VIP traders](#) for more details.

● **Funding Fees:** Funding fees will only be charged for perpetual contracts, and they will apply when positions are held past 21:00 (UTC+0) every day.
