

A dark blue banner for BTCC. On the left, the BTCC logo is followed by the text "Enjoy fees as low as 0.03%". Below this, there are two columns of bullet points: "70+ crypto futures", "24/7 customer support", and "100,000 USDT for demo trading" on the left; "10-150x flexible leverage" and "Support credit card deposits" on the right. On the right side of the banner, there are icons for Bitcoin, a smartphone displaying charts, and a "Register Now" button.

BTCC
Enjoy fees as low as 0.03%

- 70+ crypto futures
- 24/7 customer support
- 100,000 USDT for demo trading
- 10-150x flexible leverage
- Support credit card deposits

About Mina (MINA)

Original:

<https://www.btcc.com/en-US/markets/Mina-JPY>

From [Ethereum](#) to tendermint, most blockchains are small at the beginning, but can grow to thousands of megabytes over time. In the blockchain, the degree of decentralization of the architecture increases with the number of nodes responsible for verifying network transactions. In a typical blockchain, each addition of a new block will make it more expensive to operate a complete node.

As a bridge between the real world and [cryptocurrency](#), Mina protocol hopes to completely change the [blockchain](#) industry with breakthrough technology and promises to conduct cheaper transactions at a lightning speed.

What is Mina?

[Mina](#) is the origin of Mina blockchain. Mina token needs to guarantee the security of the network through guarantee / proof of equity (POS). They are also used in Mina's snarketplace. Token holders can ensure network security directly through POS, or pledge or entrust their tokens. Please note that the agreement does not use a price cutting mechanism (loss of equity) to punish the verifier for misconduct. Therefore, there is no risk in locking your token or consigning you to the market.

Is Mina a Good Investment?

To measure whether a cryptocurrency is a good investment, two factors should be considered: the enthusiasm of investors and the help of the power of blockchain in real life. When it comes to Mina protocol, these two aspects are fully reflected. The public sale of Mina tokens attracted far more investors than expected, and the enthusiasm of the market for the agreement cannot be concealed.

In addition, the prospect of decentralization and scalability provided by this new architecture paves the way for developers to create applications based on privacy and control of private information. Although Mina was launched in March 2021, it was not listed on the exchange until May. Since August, the price of Mina has increased by more than 100% (see the figure below). Although this is not an astronomical figure, it is a good starting point for a fairly new cryptocurrency in the (highly competitive) cryptocurrency market.

How to Purchase Mina Crypto

You can buy Mina from the top cryptocurrency exchange. All you need to do is register a wallet, wait for your identity to be verified, deposit the funds into your account and make a purchase.
